Training and Technical Publications Synergies

Our technical publications team is dedicated to supplying your needs.

Program Management

- Synergies in Program Management.

- Single source contact and reporting, combined meetings for training and technical publications.

Technical Data

- Reuse of incoming technical data for the creation of training material and technical manuals.

Subject Matter Experts

- Combining training and technical publications increases the effectiveness of the SMEs to lead both efforts seamlessly.

Reduced Contract Management

- Having a combined training and technical publications contract reduces the contractor's management and tracking requirements.

- One stop shopping.
